

Amendments to the Claims

Amend claims 1 and 2.

Add new claims 3-8.

The following listing of claims will replace all prior versions and listings of claims in the application:

1. (currently amended) A process for making a front panel of a scoreboard comprising the steps of[[,]]:
 - a. selecting multiple elements selected from a group consisting of numerals, letters, words, and graphics for a front panel of a scoreboard;
 - b. formatting said selection multiple elements;
 - c. inputting said selection multiple elements into a computer;
 - d. loading a single sheet of film with a pull-away backing into a digital printer connected to said computer;
 - e. printing said selection multiple elements onto said film;
 - f. removing said pull-away backing from said film; and,
 - g. applying said film to a front face of a scoreboard.

2. (currently amended) A process for making a front panel of a scoreboard comprising the steps of[[,]]:
- a. selecting multiple elements selected from a group consisting of numerals, letters, words, and graphics for a front panel of a scoreboard;
 - b. formatting said selection multiple elements;
 - c. inputting said selection multiple elements into a computer;
 - d. loading a single sheet of film material into a digital printer connected to said computer;
 - e. printing said selection multiple elements onto said film material;
 - f. removing said film material from said printer; and,
 - g. applying said film material to a front face of a scoreboard.

3. (new) The method of claim 1, wherein said multiple elements include all the desired elements for a particular scoreboard, so that said single piece of film applied to the scoreboard applies all the desired elements in one step.

4. (new) The method of claim 2, wherein said multiple elements include all the desired elements for a particular scoreboard, so that said single piece of material applied to the scoreboard applies all the desired elements in one step.

5. (new) The method of claim 2, wherein the step of applying said material to a front face of a scoreboard comprises a permanent attachment of said material to the scoreboard.

6. (new) A process for making a scoreboard comprising the steps of:

- a. selecting multiple elements selected from a group consisting of numerals, letters, words, and graphics for a front panel of a scoreboard;
- b. inputting said multiple elements into a computer;
- c. formatting said multiple elements;
- d. loading a front panel into a digital printer connected to said computer;
- e. printing said multiple elements onto said front panel;
- f. removing said front panel from said printer; and,
- g. durably applying said front panel to a scoreboard body to create a scoreboard with said multiple elements.

7. (new) The method of claim 6, further comprising the steps of:
- a. utilizing said computer to align said multiple elements; and,
 - b. printing the aligned multiple elements onto said front panel, thereby maintaining alignment of said multiple elements on the scoreboard.
8. (new) The method of claim 6, wherein the step of inputting said multiple elements into a computer further comprises the step of scanning at least one of said multiple elements.
